Education

Vellore Institute of Technology

Bachelor of Technology

Computer Science Engineering with Cloud Computing and Automation

CGPA: **8.69/10.0**

October 2022 - Present

Kendriya Vidyalaya

12th (CBSE)

86.4%

2020 - 2021

Experience

UPTOSKILLS

Business Analyst (Intern)

Sept 2025 - Dec 2025

(Remote)

- Interpreted business requirements and conducted detailed data analysis to generate actionable insights.
- Collected, validated, and organized data from multiple sources to ensure 95% accuracy, consistency, and reliability.
- Developed 5+ dashboards and analytical reports for stakeholders, improving data-driven strategic decision-making.

Projects

FileGo [[Live](#)] | *Next.js, AWS S3, IAM, Node.js, TailwindCSS*

[GitHub](#)

- Built a highly secure and scalable file upload service leveraging AWS S3 with presigned URLs and IAM-based access control.
- Enforced complete end-to-end security with SSE-KMS encryption, ensuring compliance-grade protection to all uploaded files.
- Implemented multiple file sharing by generating archives using JSZip, uploading them to S3, and providing shareable links.
- Introduced expiring share links and automated deletion logic to optimize storage usage and lower long-term overhead.

Threads [[Live](#)] | *React.js, Node.js, Express.js, MongoDB, Socket.IO*

[GitHub](#)

- Built a real-time chat and event management platform enabling seamless communication between users and organizers.
- Strengthened app security through JWT authentication, role-based routing, and persistent session management.
- Enabled real-time online/offline indicators and accurate unseen-message tracking using Socket.IO to enhance communication.
- Optimized API calls and state handling via React Context API, reducing redundant calls and improving overall responsiveness.

DriveOn [[Live](#)] | *React.js, Express.js, Node.js, MongoDB*

[GitHub](#)

- Designed a car rental platform that enables users to search, filter, book, and manage vehicles through a responsive interface.
- Enhanced platform security by implementing JWT-based authentication and encrypting user credentials with bcrypt.
- Streamlined the booking experience with a date-picker, availability checks, and filtering to simplify decision-making.
- Orchestrated an admin dashboard for inventory management (add/edit/delete cars) and optimized page loads using ImageKit.

Technical Skills

Programming Languages: C++, SQL, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js, MongoDB

Tools: Git, GitHub, VS Code, MySQL, Power BI, AWS(Basic)

Certifications

- Certified **AWS Academy Graduate - AWS Academy Cloud Foundations**
- Certified **HTML, CSS, and JavaScript for Web Developers** by Coursera

Extra-Curricular

- **Lead, FinTech Club, VIT:** Oversaw the planning and execution of 5+ events with 100% on-time delivery while also developing and running a recruitment campaign that attracted 50+ applicants.
- **Core Team Member, iOS Club, VIT:** Managed outreach and public relations by connecting with 200+ students, promoting multiple events, and increasing overall club visibility by 30%.
- Selected in the top **0.56%** (out of 200,000+ participants) in **Adobe India Hackathon's** coding round.
- Solved 400+ problems across platforms including LeetCode, GeekForGeeks, CodeChef, and more.
